

ENTRY REQUIREMENTS FOR GERMAN CITIZENS HOLDING GERMAN PASSPORTS

Dear Sir/Madam,

We refer to your enquiry and wish to inform you that German citizens holding German passports are exempt from South African visa control for a period of ninety (90) days. A visitor's permit, for a period not exceeding three (3) months and for a specific purpose e.g. holiday (see note below for other purposes), may therefore be issued to a German citizen holding a German passport at a South African port of entry e.g. international airport, provided that he or she is able to submit the following documentation to the immigration officer:

- a passport valid for no less than thirty (30) days after departure from the Republic of South Africa, and containing at least one (1) blank page for endorsements;
- documentation confirming the purpose and duration of the visit, if applicable;
- proof of a valid return air ticket or payment of a deposit, or both the return air ticket and deposit, which shall be refunded after the foreigner's final departure or after a permanent residence permit has been issued to the foreigner;
- a yellow fever vaccination certificate, if the foreigner travelled or intends travelling from or through a yellow fever endemic area: provided that the certificate shall not be required when the foreigner travelled or intends travelling in direct transit through such area.

Kind regards,
Consular Section
